

Master Page Grid Cover Type Book

Step 1: Create an Indesign File

Name it “lastname first name _Type Book 07”

Your file should be set up

- 1 vertical column.
- .5-in. margins

Step 2: Create New Master Spreads

We will create three new grid options

9×9 grid, Rule Of Nine

5×4 Grid

4×8 Grid

6×6 Grid

Open the page panel

click top right to add new master spread.

Step 3: Double Click On The Master Page To Activate It.

Now that you’ve selected your master pages, you can adjust and create grid columns by going to your menu and selecting (Layout > Margins and Columns).

Step 4: Now that you have your columns set, it's time to create your modules for your grid.

Add horizontal guides to create a modular grid by going back to menu select (Layout > Create Guides).

Step 5 Insert new pages into your document with your new master pages.

Select master page icons for pages menu and drag them in pages layout window

Step 6: Select one grid page layout

Create one initial layout
