I choose advocacy for the blind. The reason why i chose this specific awareness is because I am a victim. As a person who is borned without a clear vision ahead literally! I had struggles to take care of my glasses at a young age. And i broke more that 20+ pairs. I loved sports but i didn't have the proper gear to play sports, causing my glasses to break because of accidents. Glasses cost a lot of money. Especially if you don't have insurance. And even if you have insurance, there are limited options that wont support your sense in fashion.

I am writing this psa because i believe people who are either born blind or even becoming of age that blindness has affected someone. They should NOT be charged. It should be a non-profit awareness. I say this because no one asks to be blind or have a blur in their eye.
