

Changing Your Major

1. Fill out the form "Change of Curriculum" (linked on OpenLab).
2. The form requires the signature of a departmental advisor.
3. The completed form must be submitted to the Registrar.
4. Major changes are only processed at the beginning of the semester, so if a student goes through the process now, it will not take effect until the beginning of the Spring semester.
5. Students should try to meet with an advisor in their *new* major to decide courses for next semester.

NOTE:

- Many majors have requirements you must meet in order to officially declare (such as: GPA, English and Math proficiency, certain courses completed, etc.). See the department website and advisors for details.
- SEEK Students must meet with their SEEK advisor before changing their major.
- ASAP Students are advised to meet with their ASAP advisor before changing their major.
