Format guidelines for color inventory
1. Choose album cover
2. Create proportional color inventory based on this album cover (6-10 colors)
3. Use this inventory to create a composition of your choice. Use the design principles
that we have learned in class to create a visually resolved composition!
4. Neatly attach two layers of tracing paper, with your self assessment on the bottom page
*Tip: look back through your design journal to get inspired about the design principles
