-------	-------------------	---------

My Cumulative Project is being Production Manager of the Graves Inn Haunted Hotel. In my eyes for it to be a success, my crew and audience is content and without injury. Another success, would be personal growth at the end of this project.  
I'm hoping that I understand what it takes to become a great leader and learned how to balance being an easy going leader and authoritative one.

Theory X: Managers believe their employees are less intelligent, lazier, and work solely for a sustainable income. Management believes employee's work is based on their own self-interest. Managers who believe employees operate in this manner are more likely to use rewards or punishments as motivation.

Theory Y: Managers assume employees are internally motivated, enjoy their job, and work to better themselves. These managers view their employees as one of the most valuable assets to the company, driving the internal workings of the corporation. Take responsibility for their work and do not need close supervision to create a quality product without a reward.
