Hello,

My name is Dionel Rodriguez, and I am completing my final year in the Communication Design major at the New York City College of Technology. I am writing to apply to the position of Jr. Graphic Design Officer. I believe that being a part of the CBS Sports Network would provide a culture in which to pursue my goal of honing my communication design skills, enhance my professional skills and continue to build networks.

I have worked with various clients on a freelance basis, as well as worked in the graphic design department for fashion company Top Gun and as a web designer for Our Lady Queen of Martyrs School (OLQM). As a graphic designer I handled product photography but I also took the initiative to edit them professionally. In OLQM I designed the website and the SEO and analytics operations.

Working as an assistant manager, telemarketer, translator and current graphic designer have provided me with a strong base of communication and helped me learn how to develop multitasking. I work efficiently, while being very detailed oriented, and would be a valuable asset to your creative services group.

Thank you for your time and consideration.

Sincerely,
Dionel Rodriguez
