

## **Julia Chung's ePortfolio**

Hello, my name is Julia. I am 18 years old and I am currently working towards my Bachelor's degree in Hospitality Management. I don't have any working experience in a hotel, but I am excited to learn about what it is like to manage one. My goal is to do well in the hotel management industry because I feel like the hospitality that you receive when traveling helps make your experience all the better. As someone who likes to travel, I find the mood and atmosphere of the hotel I stay at help set the mood of the trip that I want to create. When guests leave the hotel, I want them to leave with a smile. This is why I want to focus more on hotel management industry.
