Hello my name is Kelley Sullivan, I've worked in the hospitality and restaurant industry for close to ten years and I could not imagine having done anything else. Upon discovering about the hospitality management degree options here at City Tech something just clicked with me and I finally had some direction and understanding of what I want to do with my life. My short term goals are to learn as much of the behind the scenes work about my industry as possible and hopefully make some long lasting connections via other students/faculty or alumni. My main long term goal is to eventually own my own bar and restaurant here in New York City.
