The Quotes that I used for these design quote is "When words fail, Music Speaks "By William Shakespeare. For the first design of this quote, I chose this image of a piano and candle which gives an emotional vibe that goes with the meaning of the quote. Meaning that Music gives a message and meaning to words, Music gives more than words but tone to the mood of the message that is giving to the listener. I used the orange tone for the quotation marks which matches with the candle tone and the font I used is Minion Pro.

“When words
fail, music
speaks”

William Shakespeare

For the second design I used an image that shows this woman with music notes all over her head which means that words can be forgiven but music stays in your head and I used a green and muted yellow tone for this design and Castellar Regular the font I used.

For the third design I used this image of two holding hands made with music notes. Which helps with the meaning of the quote that Music can band two people together. For this design I used dark tones for the mood of the image showing sadness when you need someone music can unite people. I used Bodoni condensed for the Font.
