R.N. Student

Dedicated and compassionate prospect nursing candidate with clinical and job experience. Dependable team player who would be an asset due to strong work ethics. Highly organized individual who commits to following facility's protocols to provide upstanding patient care. Always looking for an opportunity to learn and build on existing skills.

Clinical Rotations: 100+ Clinical Hours

Community Health, Cumberland Diagnostic & Treatment Center, Brooklyn, NY

- **46 Hours - Medicine, OB/GYN, and Pediatrics:** Each day I was able to work with my assigned nurse to provide patient care to clients in the community. I was either participating in the initial screening or discharge phase. During prescreening, I would do the vital signs and provided input on assessment questions along side the clinic nurse. Patient teaching was key when being discharged. I was able to have collaborate with the nurse to provide clients with teachings on prescribed medication, pre-surgical

Leadership, Kingsbrook Jewish Medical Center, Brooklyn, NY

- **46 Hours - Dialysis:** Shadowed dialysis nursing administrative to observe the balancing act of being the mediator between the administrative and floor worker's views. Able to view issues covered in class text book such as monthly budgeting, employee scheduling plan, and leadership style. I conducted anonymous hand washing monthly survey, attended meetings, and participated in new technology workshop for the units. I was able to relay my views on changes or different approach to facilitate a better environment for the clients and staff.
