New York, NY 10020

Dear Marvel:

I am interested in applying for an internship for Marvel and after looking over your list of positions I believe I am a great fit for Creative Services.

I am currently working on my Communication Design bachelors degree with a focus on illustration. I have a working knowledge and skills in multimedia tools Photoshop and Illustrator. Furthermore I have completed several projects during my undergraduate college experience which include creating my own comics and many of these projects required me to touch up my own works on Photoshop. I learn quickly and adapt to new environments easily, I am capable of taking in criticism in order to best improve my work as efficiently as possible.

Attached is a copy of my resume and my portfolio of work demonstrating my ability properly use Photoshop and Illustrator is available upon request. You can reach me via my cell phone (646) 229- 957 or email me at AdriRodriguez7@gmail.com.

I look forward to hearing from you and my prospects for an internship.

Sincerely,

Adriana Rodriguez
