Mr. Barry Haber  
Director of Development  
The Center for Family Support Inc.  
333 Seventh Avenue, Ninth Floor  
New York, New York 10001

Dear Mr. Barry Haber:

This letter is to express my interest in your posting in CityTech for an open internship/ Job Position in the Marketing Website IT.

Professor Dr. Ossama Elhadary, Assistant professor, and internship coordinator in Computer Systems Technology department, CityTech, CUNY sent me an email about the Internship/Job Position.

With a Bachelor's degree in Computer Science, I would like to share my background of education in the Computer Science campus and skills that I could contribute to your organization.

My professional experiences are representatives of my abilities. My last project using Komodo IDE a multi-language code editor by ActiveState helped me to create web-pages, and my current project, a Video Management that teaches Visual Basic language created by Microsoft that is the first of its kind and is now being sold across the country to corporations and universities.

Following all the classes that required to get my degree in Computer Science has prepared me well to make valuable contributions to your goal of successfully creating, implementing codes in new web pages. Through varied courses, described in my resume, I have the ability to learn new skills and to interact well in a technical environment. I look forward to apply all these abilities at The Center for Family Support Inc. IT department.

I've attached a copy of my resume that details my projects and experience in software development. I can be reached anytime via my cell phone, 917-279-3130 or via email at [vergaray.milagros@gmail.com](mailto:vergaray.milagros@gmail.com)

Thank you for your time and consideration. I look forward to speaking with you about this opportunity.

Sincerely,

Milagros Vergaray
