

My name is **Astrid Marroquin** and this is my second semester in City Tech. My major is Fashion Business , after I get my business degree I'm going for my Fashion design degree at a different school. I want to be an **entrepreneur** . I never really liked having people telling me what to do or give me limitations on things , and as a career I don't see myself working for someone else. I want to be and **will be my own boss**, and that's exactly what I'm aiming for and **will become**. I also am a graffiti artist, I do graffiti as a hobby , paint ,anything that involves art , even music. I'm an **artist**.
