Then enjoyment of movies

Picture one - first time movies

According to Berger, J. (2013) "Photographs bear witness to a human choice being exercised in a given situation. A photograph is a result of the photographer's decision that it is worth recording that this particular event or this particular object has been seen." the first time i took

my niece to the movies to see a movie we have been waiting to see called trolls band together that day that we was preparing to go it was shinning outside but the moment we leave our building its raining what terrible luck. When we got to the movie theater the line for food was long so i told my niece to go the movie there was 30 minutes. But the reason why this was important to me is because it was th day where me and my niece really bound scaled high that day and i love having something we can connect to. " What then gives the photograph as photograph meaning? What makes its minimal message

At portrayed by Teju Cole But could they have seen every element at the moment they pressed the after? Lapossible. The photographer has to be there to begin with, This picture was when my mom, my niece, and i had a movie night in my sisters room back when trolls world tour come out. This day was really nice, my mom didnt have to go to work, my niece was telling me about the movie and wanting to watch it. You could see the focus in the picture on us looking towards the tv. I choose this picture because my mom normally doesnt do things like this me shes always doing something its not work because she has a lot of responsibilities around the house and so she just stopped doing so much that day and she said "let me come on and watch this movie with you guys." and it was the best day in my eyes we´ere watching the movie laughing making jokes and having some fun i havent seen my self smile in joy like in a while.

As stated in *The Benefits of Watching Movies in Theaters vs. at Home* "The larger-than-life images and immersive sound create a cinematic experience that can't be replicated at home." this was the picture of when I first went to AMC Theatres. It was with my two best friends before they had to leave for college, this was the picture of any of us edit we look at this picture of AMC the of our friendship.

Berger, J. (2013). *Understanding a Photograph*. In G. Dyer (Ed.), *Understanding a Photograph* (pp. 17-21). Aperture.
