

## CLUBS & EXTRACURRICULARS

**Architecture Club:** Active since September 1979 to the Present day. We have been providing City-Tech students with Educational events such as Guest Speakers, Onsite tours, Architectural Firm Visits and trips both local and abroad. One of our goals is to keep providing educational events and extracurricular activities outside the school for all members.

**DigiFab Club:** an organization of students that is interested in emerging technology in the fields of Architecture, Parametric and Computational Design, Digital Fabrication, as well as Social/Environmental Interventions. Working in collaboration with other clubs, students, teachers, and external sponsors and professionals; the Digital Fabrication club strives to implement various architectural and social projects within our school and community. The club aims to design, fabricate, and assemble large/small scale architectural projects.

## TECHNĒ

**NYCCT TECHNĒ:** is an annual publication made possible thanks to the joint effort between students and professors to showcase the Architectural Technology Department and the potential of its students.

**Sustainability Club:** is a service and social action club with an emphasis on waste on campus and in the Dumbo community. Students are constantly active finding ways to contribute on the focus area, whether is designing and developing solar houses, bike racks, or promulgating awareness of environmental issues.
