THE IMPORTANCE OF STARTING YOUNG AND AT SCHOOL

WHAT IS FINANCIAL LITERACY?

It is the personal ability to use fundamental knowledge and skills to manage financial resources effectively for a lifetime of financial well-being.

Children are growing up in an increasingly complex world where they will eventually need to take charge of their own financial future. As young adults.

A CORE LIFE SKILL

While high school helps to prepare kids for college or trade school, financial literacy helps prepare kids for the real world. It's a valuable lesson that should not be skipped!!

Low levels of financial literacy have also been associated with a lower standard of living, decreased psychological and physical well-being and greater reliance on government support.

A recent survey by S&P Global Survey in 2015 found that only

35%

Of men and

30%

of women are
financially literate
