## Ray Dalio - Global Macro Investor

- Income losses.

Balance sheet losses

- Who has savings

Production of Money & Credit

Money and credit US dollars & Euro

~~1930~~ Situation same 1930-1940

A lot of government borrowing

also 0% interest rates

Borrowing  
Money  
~~with~~  
will  
leave  
America in  
debt

Europeans are doing the same

The rest of the world with have holes -  
a lot of the world would not get their money  
in credit.

---

Collaboration with each other.  
Will countries help each other out.

---

Helping Each other

Resource allocation goes to have  
the next resource.

the great  
depression

A depression 1929-1932

fall in the economy 10%.

1933 printed a lot of money

interest rates hit zero

adaptation and inventiveness

A new world order - Money and credit.

---

Hotels will go broke

---

Banks and little business

\* Believes in creating productivity

Productivity raises living standards | Education  
Short term debt - 8-10 years

6:21  
long term debt cycle - when you begin a new  
type of money and new type of credit  
lost

Politics - How do you deal with the wealth  
gap?

Revolutions:

Wars

Which kind of industry will survive

The stuff we will always gonna need  
meat and potatoes.

---

Countries vulnerability and  
other country opportunity

31:00

Countries hoarding assets to become  
more powerful.

degloblization

- China is helping other countries

Asirang News

Italy and Spain suffering - no tourism

UK flybia gone bankrupt

• Iberia

• Tourism Sectors

• Universities canceling classes in Italy

• Trade is going to suffer between Europe and East Asia. We starting to see this in Germany.

---

Central Bank of Korea

5.5 million stimulus check

## You Tube

We shed 3 months in the us more jobs that we created in ten years.

More in Economy.

Immigration is good to America

Technology will advance leaving us ~~with~~ <sup>less</sup> jobless.
