

KNOWING BROOKLYN

The City Tech GenEdge College Theme is a simple invitation: we offer an open-ended idea you can use to inspire a single lesson in your class, a project in your club, or any number of pursuits you choose to execute. It is a voluntary effort that provides us all a chance to gather later to compare notes and celebrate the work of our students in response to the theme. This year, we explore **KNOWING BROOKLYN**.

JOIN US! ALL ARE WELCOME!

Are you in a club? Make work and bring it to be seen.

Do you teach a class? Help your students explore the theme.

Are you doing Brooklyn-based research? Share it!

We will have campus-wide exhibits in April – your work will be seen by all of City Tech!

Contact the GenEdge team at genedtheme@citytech.cuny.edu or visit the Gen Ed Committee site on OpenLab: openlab.citytech.cuny.edu/gened

THE CITY TECH GENEDGE

The **City Tech GenEdge** is the result of years of college-wide curriculum development and effort by the General Education Committee. We have taken the Gen Ed requirements, the students' needs, and expectations of the professional world to put together a meaningful approach to skills and attitudes we all can use. This is the added benefit of culture and community our students and graduates deserve as they enter the world as engaged citizens. This is the added boost our college provides to excel and the tools it gives to be productive throughout entire careers.
