

ASSIGNMENT 02A – Exterior Wall Plan Detail – Prep Drawing

DUE DATE: MONDAY MARCH 23 10:00 AM

As we discussed in our Zoom class meeting yesterday:

1. **Draw** a partial Plan of the exterior wall of Federal Hall that includes 3 piers and 2 windows.
See the Module 2 Assignment on OpenLab for this Module.

NOTE: This is a base drawing we will use for Module 2.
Draw only the outline of the wall; do not draw the materials or other items.

Use the dimensions you have on your Module 1 drawing.

- Scale for this Module: $\frac{1}{2}'' = 1'-0''$
- Sheet size: 12" x 18" The plan will fit on 12"x18" paper.
- Paper: Vellum or Trace

NOTE: Both the sheet size and scale have been changed since we do not have access to the Labs at school.
This is to accommodate at home drawing.

- Drawings for the rest of the semester will be free hand. Use the smoothest surface you have to draw on.
- If you have a parallel bar or T-square, you may use that, but if you don't that's ok. You can use your triangles for straight lines.
- It is important that your drawings are carefully drawn and clear.
- Your drawings must be drawn to the scale of the assignment.

2. **Photo** your drawing + email it to me as soon as you finish, but no later than Monday March 23 at 10AM.

3. **Read** the Module 2 assignment page 1. This can be found on the OpenLab course site, Course Materials, or on Blackboard, linked to this assignment.

- Write 3 purposes of the Module 2 assignment and email it to me before Tuesday's class.

Thank you. I will see you on Zoom Tuesday morning. I'll send the link to our meeting on Monday.
