

## Jennifer Lara (edited e-profile)

Freshman at City Tech, majoring in Hospitality Management. Alumni of C-CAP (2017) where I participated in job training, job shadows, spring/summer internships, hands-on-work, including C-CAP scholarship competition. My academic goal is to learn more in depth about culinary courses and hospitality. As of career goals, hope to one day open a small bakery, and with time, build up my restaurant. I've learned how to exceed challenges, as well as time management. When you are working with a large group, you must collaborate with others to become a better, bigger and stronger team.
