

Graphic Design Principles 2

Instructor: Prof. Childers pchilders1@mac.com

poster Week 9, Thursday, November 8

In class

- Finalize poster
- Review printing specifications

CMYK

borderless printing

We will print our posters in class on Monday

- Your poster must be production ready to print
- You can only create one print
If your poster is not prepared, or your specifications are not correct
you will need to provide your own printing

Homework

1 Poster

Prepare poster for printing

Click File, then Page Setup

- 1 In the Page Setup dialog box, click the Paper tab
- 2 Under Paper Size, select brochure paper size

In the Print dialog box, click Properties, and then click Paper/Quality

- 1 Select 11 x 17" borderless paper size
- 2 Create a pdf to print

Bring a full-sized print of your pdf to class. Do not trim

Supplies

Fomecore/fomeboard

Bring board to class to mount poster

3/16" thickness to mount poster (poster size: 11 x 17")
