**Type Journal 03**

Choose 5 of your photos from last class. Write 3 paragraphs about what the typography of your neighborhood says about the character and makeup of that community. Post your essay and images on your ePortfolio site on OpenLab, and send me the link to your writings on our OpenLab class site under 'Homework Postings':

Some of the things you could talk about:

- Is the typography well-crafted or does it look as if it were done by a non-designer?
- Is there any hand written lettering, was it digitally produced?
- Is it created by people in the community (businesses, etc.) or is it mostly produced by the government (street signs, etc.)?
