

One world Observatory -Cynthia Alicea

The One World Observatory now stands near the site of where the Twin Towers one stood tall. Now its the tallest building on the West Hemisphere. It provides an experience for its guests that is interactive and informational about New York City. Its a unique experience and gives you amazing views of Brooklyn bridge, Empire State building, Statue of liberty and most of Manhattan and New jerseys sky line. It has succeed in turning one of the most grim areas of New York city into place of celebration and joy.
