

What did you like/dislike about the site visit to The 1 Hotel?

What I like about The 1 Hotel is that they are a sustainable hotel. It has a touch of nature that makes it more interesting. The rooms are amazing, they have a very beautiful view. Something that caught my attention was that in the rooms they use tablets that the guests use to be able to communicate with the cast members in case they need something, so they do not have to be calling by phone. In the rooms, they also have recyclable trash cans so that during the stay of the guests, they learn how to recycle. The room we visit the ceiling is made of mushroom that was molded and dried. Another thing that I like is the amenity of receiving their guests with fruits, it seemed something very original for me. The cast members were very friendly, always with a smile.
