

Networking at 1 Hotel

After visiting the 1 Hotel last week, I immediately felt big ambition and inspiration in becoming a part of the project. As someone who has great interest for the environment and ecology, I was positive that this hotel is everything I ever wanted, and if hopefully my dream of having my own property realizes, it would look much alike our amazing 1 Hotel! Every idea and expression look carefully and thoroughly planned and created, and it simply inspires me. If Hospitality wasn't my first choice, then Ecology would certainly be that. I made a plan to come back to 1 Hotel, after my summer break, and do everything in my power to be recognized as a prospect for becoming a part of this family, and growing professionally.
