

Hotel 1 Site Visit

There were a lot of significant information that I learned from the 1 Hotel tour near the Brooklyn Bridge and right on the water. First and foremost the views were great! The concept of a green hotel was awesome. There is a massive yard for fun, games, art, relaxing, and pretty much anything you want. The architecture and decor are second to none. It is an art deco, hipster, eco-friendly, technology filled wonder of the 21st century. Not to mention, the restaurant downstairs, is beautifully fantastic. Overall the hotel looks great and smelled even better.
