

## Savanna Acevedo Edited

New York is known to be a populated city filled with locals and tourists. These people come from all around the world. Who mainly visits for the famous attractions, exciting activities, and tasteful food the city offers. A location where you can find all these things can be found at Brooklyn Bridge Park. Here a majority of recreational facilities are available. Such as fields and courts that are occupied for sports such as volleyball, basketball, soccer and football and so on, a water front view with paths to enjoy a bike ride or go for a jog, Grills set alongside seating areas for a BBQ, and grass space spread throughout areas of the park where people can go to relax. Brooklyn Bridge Park is significant to the culture of New York because all things mentioned above can be found at this park in a matter of walking. People go here to get a feel of the peaceful vibes.
