Hi Amanda,

I'd certainly be willing to help. Do you think you could scan and forward me a copy of the chapter, so I could take a look and make sure it is something I could teach well?

Best,

Rob

> I hope that this email finds you well. The reason for me contacting you is about a course that I am teaching in the Spring, Health Psychology. It is going to be listed under Interdisciplinary, and part of that is allowing for me to feature invited guest talks. Would you be willing to participate? I thought that you would be a good fit for the topic "Health Care Systems and Policy: Effects on Health Outcomes". This chapter of the book lends itself to discussion on health care ethics. I would provide you with some student generated questions prior to the talk. The class is being offered Wednesday evenings 6-8:30.

The topic is being covered late in the semester (I don't have the exact date just yet). Please think about it and let me know. If there is a specific date that works best for you, I can certainly accommodate. All the best,
