February 12<sup>th</sup>, 2018

Dear Prof. Roman Kezerashvili,

I am very happy to write in strong support of the proposal for the ID course Modern Physics, and to confirm that I will be delighted to provide a guest lecture entitled “Quantum Chemistry: Atoms, Molecules, and Periodic Table of Elements” for the same course.

I am enthusiastic about City Tech’s commitment to provide interdisciplinary studies that allow students to connect concepts and ideas across boundaries. Physics and Chemistry have many shared areas that are often treated separately. I am positive that showing students that common ground will encourage critical thinking, and will provide a really rewarding learning experience.

Sincerely,

Alberto Martinez, Ph.D.  
Assistant Professor of Chemistry  
NYC College of Technology (CUNY)
