To: Viviana Acquaviva <VAcquaviva@citytech.cuny.edu>;

Dear Viviana,

I'm confirming that I will give a week's worth of guest lectures (four contact hours), tentatively scheduled for week 14, for your course "PHYS3600ID: Machine Learning for Physics and Astronomy" in the Fall of 2018. The topic of the lecture and programming exercises will be "Applications of machine learning algorithms outside academia: the example of the insurance industry".

Best,
Andy Lawler
