

#N16 - N30 (Narrow Samples): Fibers, Yarns, and Narrow Fabrics

 <p>Sample N16 / Merino wool yarn 100% Merino wool / natural protein fibers / superwash / from Merino breed of sheep / courtesy of Louet North America, www.louet.com/ / washable wool</p>	 <p>Sample N17 / chlorine-free superwash wool yarn / 100% wool / natural protein fibers / worsted yarn / chlorine-free superwash / from sheep / courtesy of Schoeller Spinning Group www.schoeller-wool.com/ / very smooth / new technology eliminates chlorine, which causes environmental harm according to www.epa.gov/</p>	 <p>Sample N18 / bouclé yarn 78% mohair/13% wool/ 9% nylon / natural protein fiber/synthetic fiber blend / bouclé (loop) yarn / mohair from Angora goats, wool from sheep / regular loops along length of yarn</p>	 <p>Sample N19 / angora yarn 100% angora / natural protein fibers / acid dyed / from Angora rabbits / acid dye a major dye class for wool, silk, and nylon</p>	 <p>Sample N20 / baby camel yarn 100% baby camel / natural protein fibers / simple, 3-ply yarn / from baby camels / three strands as one</p>
 <p>Sample N21 / cashmere yarn 100% cashmere / natural protein fibers / simple, 2-ply yarn / from cashmere goats / two strands as one</p>	 <p>Sample N22 / alpaca yarn 100% alpaca / natural protein fibers / woolen yarn / from alpaca, similar to llama / somewhat fuzzy</p>	 <p>Sample N23 / yak yarn 100% yak / natural protein fibers / from yak</p>	 <p>Sample N24 / silk fiber 100% silk / natural protein fibers / tussah silk, from wild silkworms, staple fibers</p>	 <p>Sample N25 / silk yarn 100% silk / natural protein fibers / cultivated silk, from domesticated silkworms, filament fibers</p>
 <p>Sample N26 / variegated yarn 100% rayon / dyed with more than one color along the length of the yarn / regenerated cellulose fibers, a.k.a. viscose / spiral yarn a.k.a. ombre a.k.a. space dyed yarn / rayon was the first manufactured fiber / spiral a.k.a. corkscrew yarn</p>	 <p>Sample N27 / rayon (from bamboo) yarn / 100% rayon (from bamboo) / regenerated cellulose fibers / rayon made from bamboo is chemically indistinguishable from rayon made from other sources of cellulose</p>	 <p>Sample N28 / TENCEL® lyocell fiber / 100% TENCEL® lyocell / regenerated cellulose fibers / made from fast-growing eucalyptus trees, TENCEL® is a registered trademark of Tencel Ltd.</p>	 <p>Sample N29 / TENCEL® lyocell yarn / 100% TENCEL® lyocell / regenerated cellulose fibers made from fast-growing eucalyptus trees, TENCEL® is a registered trademark of Tencel Ltd.</p>	 <p>Sample N30 / fishing line 100% nylon / synthetic fiber / monofilament yarn / generic nylon / nylon was the first synthetic fiber / fiber cross section = round / single filament constitutes the yarn</p>

#N31 - N45 (Narrow Samples): Fibers, Yarns, and Narrow Fabrics

				
<p>Sample N31 / chenille yarn 100% nylon / synthetic fibers / chenille yarn / nylon is highly resilient, thus a good choice for pile yarns / fuzzy yarn</p>	<p>Sample N32 / polyester resin 100% polyester / synthetic fiber / polyester is the most widely used fiber overall / courtesy of DAK Americas www.dakamericas.com</p>	<p>Sample N33 / polyester staple fiber / 100% polyester / synthetic fibers / polyester filaments can be cut into staple (short) fibers to better mimic cotton / courtesy of DAK Americas www.dakamericas.com</p>	<p>Sample N34 / eyelash yarn 100% polyester / synthetic fibers / eyelash yarn / generic polyester / fancy braided yarn</p>	<p>Sample N35 / acrylic yarn 100% acrylic / synthetic fibers / generic acrylic / acrylic can imitate wool</p>
				
<p>Sample N36 / elastic thread 62% polyester/38% rubber / synthetic/elastomeric fiber blend / covered yarn / most rubber is synthetic / polyester over rubber</p>	<p>Sample N37 / lamé yarn / 64% viscose rayon/34% polyamide & metal composite / regenerated cellulosic/synthetic/mineral (metallic) fiber blend / combination fiber blend / metallic yarn a.k.a. "metalized" yarn / different plies are different fibers / "metalized" yarn</p>	<p>Sample N38 / A-MAIZing™ yarn / 100% corn fiber (PLA = polylactic acid) / renewable synthetic fibers / narrow knit yarn / narrow welt knit / from melt-spun fermented cornstarch / A-MAIZing™ is a trademark of SWTC Inc. www.soysilk.com / very narrow knit / circular/tube knit</p>	<p>Sample N39 / SOYSILK® brand yarn / 100% SOYSILK® brand fiber (azlon) / renewable regenerated protein fibers from naturally occurring protein / SOYSILK® is a registered trademark of SWTC Inc. www.soysilk.com</p>	<p>Sample N40 / SeaCell® yarn / 51% silk/29% merino wool/20% SeaCell® lyocell / natural/manufactured fiber blend blend of cellulose and seaweed / SeaCell® is a registered trademark of Smart Fiber AG www.seacell.com</p>
				
<p>Sample N41 / tweed yarn / 80% wool/20% nylon / fancy single yarn with flecks of a different color a.k.a. flock, flake, fleck, or seed yarn</p>	<p>Sample N42 / ratiné yarn / 100% rayon / ratiné (loop) yarn / irregular loops along length of yarn</p>	<p>Sample N43 / spot yarn / 100% microfiber polyester / spot yarn a.k.a. knot, nub, or knop yarn</p>	<p>Sample N44 / bias tape / polyester/cotton / bias woven fabric / narrow</p>	<p>Sample N45 / grosgrain ribbed pleated fabric / 100% polyester / unbleached / heavyweight ribbed pleated weave / ribbed woven rounded ribs / narrow</p>

#N46 - N53 (Narrow Samples): Fibers, Yarns, and Narrow Fabrics
