

Final Written Tshirt Statement

I express myself through my identity, beliefs and personal attributions and some of my *menti facts* are that I greatly believe in manifestation and astrology, as I believe it is what makes a person half of who they are. Being a Capricorn I feel like I strongly apply the characteristics that apply to them like ambition, organization, goal-oriented, love making my own rules (entrepreneurship ambition), and would give up a lot in order to achieve my dreams. I describe myself as a *modest* person that's why I have it in the center symbolizing that's who I am, even though sometimes I try to conceal my actual personality around certain people and my *body image*, I can be dress conscious in certain social occasions while also being very self-confident at the same time and being true to myself. When it comes to my fashion sense, my preference for *dress is* diverse and I'm not limited as I have street, casual, sexy, vintage, and a chic fashion style based on how I'm feeling. The blue, grey, pink, and yellow colors on my shirt represent peaceful calm colors and also symbolizes me because I am a calm person.
