

World Peace

Why should we fight when we can enjoy peace among ourselves.

+30 tracking

In the first world I used -40 tracking to make the letters closer to make them stand out. In the second column I used no tracking because I felt that none was needed because of the “v”. And in the last column I felt that since the word is bold I think it should be spaced out so it can be viewed properly.

World Peace

World peace can be referred to as the state of people from all countries in the world being happy and living harmoniously with each other. World peace creates one international community that can concentrate on greater issues that are affecting the planet like climate change.

The tracking in each one is different. The first one I used normal tracking, the second one I used slightly apart tracking, the third one I used far apart tracking and the last I used very closed tracking to show the different. So in conclusion each of them is different in their own tracking.

World Peace

World peace can be referred to as the state of people from all countries in the world being happy and living harmoniously with each other. World peace creates one international community that can concentrate on greater issues that are affecting the planet like climate change.
