

Culmination Meetings with Technical Advisor

We, Joel Barbecho and Adam Valle understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

Content of Meeting: We viewed the footage (unedited). The footage, especially, moving shots were impressive. The classroom scene would have been good to shot with a wide angle lens for less shakiness. Overall, the footage was good.

Content of Meeting: After the spring break, we watched the edited film. It works well. The opening scene of the two filmmakers' dialog is a bit too long in my personal opinion. It is well edited in many of the scenes. The protagonist is a likable character by many. There are some segments, which could be edited out slightly, and also adding some sound effects could be helpful in a couple of scenes. But, for the course work, the current cut works fine.
