

What's in a color word?

Project  
Baby Pink

By Joel Barbecho

# What is Baby Pink?

- Baby pink is “a shade that comes from a combination of red and white. The baby pink hex code is #F4C2C2” (Vistacreate.com)

# Why I chose Baby Pink?

- It's a very unique color that stands out and is very vibrant.
- I had baby pink hair before, and it was such a cool look.
- Not a lot of people can rock baby pink hair
- It is one of my favorite colors
- It is a hard hair color to maintain

## The significance of Baby Pink

- Baby pink can be described as “this soft, light shade of pink symbolizes innocence and youthfulness. People associate it with childhood innocence and the beauty of life before it becomes complicated
