Lab#8: Bleachy Bandana Headwrap

Red Paisley Bandana, 20in x 20in | Purchased at Party City

Shibori Resist Dyeing Technique

This was after 2 hrs of sitting in the tub soaking up the Disinfectant Bleach Cleaner

Final Result:

The shibori water bottle technique worked great with the size of the bandana. I would of tried wrapping the rubber bands tighter and perhaps adding more to give a more tie dye effect

Acrylic paint/pink & pattern dotting tool

Here I am doing the straight pattern w my dotting tool

After doing both my patterns before the final dry

Top part is the straight pattern
Bottom is the half drop pattern

Final Look: Me in my garment!
