

Lighting Design for Abnormalcy

Designed by Jessica Choi

What is Abnormalcy about?

Abnormalcy is Mr. Robbin's new show as a storyteller and an illusionist who interacts with the audience and darkness. He tells a few stories plays a few games, and communicates with the dead. "It's important to not only acknowledge that there is a hidden place in our hearts filled with malicious thoughts and black urges, but also occasionally allow this malevolence to come out and play", as Mr. Robbins would say.
