Hello Ting and Jason,

In all the chaos, I had forgotten the plan to distribute Techne at the symposium; what a thrill it was to see it finally in our hands!

Thank you so much for your extraordinary work on both the winter show and Techne this year. These were significant achievements for our department and I am especially gratified by your success when there had been several unsuccessful attempts before you took it on. As I wrote in the introduction, I expect it to be the first in a long tradition, and to play an important part in elevating the status and profile of our program, to the benefit of our students.

Best wishes for a summer of rest and renewal . . . and more contemplative forms of productivity!  
Shelley
