Hi Shelley -

Jason Barbara and myself have started to meet on a regular basis to discuss course coordinations across curriculum. As we start to outline areas for possible intersections, we have discovered that for these intersection to be possible and fruitful we may need to look at some course prerequisites. We would like to propose at the next faculty meeting the following:

1. ARCH 2410 (Design) have a prerequisite requirement of ARCH 1230 (BTECH II)
2. ARCH 2480 (Structures I) have a prerequisite requirement of ARCH 1230 (BTECH II)

Let us know your thoughts.

Best,

Claudia, Jason and Barbara
