Dear Barbara and Jason;

I was asked to look at the LOs for the B TECH Design sequence and I had some suggestions. Most of the suggestions come from our work on the AAS Design sequence and some further discussions I had with Jason today. Please find attached the drafts I sent to Lia for review. I am also resending the AAS design sequence because based on my talk with Jason, we changed the level of deliverables in Arch 2410.

Thank you.

Emma
