Emma,

Looks fine to me.

Dear Barbara, Jason, and Shelley;

Per the Provost's request, I have filled out the status report on where we stand on coordinating the course outlines with curriculum map for both the AAS and B Tech Degrees. Please review the attached report and see if you agree with me that the AAS course outlines will be finished by end of Jan. 2012 and the B TECH is under review so those course outlines will be outstanding until the department has agreed on the revisions in the last 3 and 4 years.

If you could review the report this afternoon, I would appreciate it as I have to bring it to the meeting tomorrow.

Also, Jason and Barbara, could we set a time for the next time that we will meet.

Thank you.

Emma
