Happy New Year!

I hope you are all well. It is time to schedule a meeting for us to discuss the revised Building Tech I course. We will be launching it this spring semester, but as it is still being developed this semester will serve as a BETA test to some degree.

As many are working during the day, I suggest we try to meet one evening next week. Let me know how Tuesday, Thursday, or Friday evenings look for you next week (Jan 16, 18, or 19)

I propose to meet 5:30-7:00pm, but we can adjust that time slot if necessary.

I hope to send you a course outline to review prior to our meeting so you can come prepared to discuss it and suggest any modifications.

Best regards,

Jason
