Yes/No		No
2a. If Yes, please provide names of committee faculty member:		
		Program review is a continual parts of of our department activity - course coordinators, curriculum committees, steering committee
3. Please list program outcomes:		
Program Outcome #1:		Bachelor's degree graduates can demonstrate mastery of pragmatic and conceptual solutions to modern-day design problems in areas related to architecture.
Program Outcome #2:		Students in this program have greater opportunities in employment and in advanced education at the graduate level as a result of the base knowledge gained at City Tech.
Program Outcome #3:		Successful graduates develop their own inherent approach to design, professional ethics, impact upon the built environment and the role of the architect in society.

Note. One of these will be completed for each degree program offered in your department.
