To: Juanita But <JBut@citytech.cuny.edu>; Pamela Brown <PBrown@citytech.cuny.edu>; Jason Montgomery <JMontgomery@citytech.cuny.edu>; Robert Ostrom <ROstrom@citytech.cuny.edu>;

Thanks all.

READ is part of our fabric of success. Our faculty are eager to be exposed to what they can do to improve student engagement and ownership of learning.

Between READ and Sandra McGuire, we have well-tested strategies to use.

The results speak for themselves.

Dear Jason,

As Pam and Julia have noted, your presentation was remarkable even without the visuals, and your note-taking grading rubric is really amazing!. We were also greatly encouraged to see significant improvement in your students' assessment results. Thanks you!

Also many thanks to Julia for helping us manage READ and reaching out the new faculty. As always, we greatly appreciate your support in every single way.

Best,
Juanita

Dear Jason,

I was so impressed with the approaches you are using to engage students in reading and making learning relevant and fun. Great improvising on your part – if you had not mentioned the technical difficulties I doubt I would have noticed.

Congratulations and thank you!

Best,
Pam

Jason,
Exceptional presentation!
Not sure why it did not work as planned?

Please decide on Creative Commons license of your choice, and consider posting to the READ Architecture section. That you have coordinated 7 sections engaging students in year one, is outstanding work.

Rob and Juanita,
You have inspired disciplinary experts to invite novice learners to take ownership of their future by developing habits of mind that are necessary for success in the discipline and beyond.

With deep appreciation.
Julia

Juanita and Robert

Great workshop today. I am so sorry for the snafu regarding my presentation. Prezi seems to work everywhere on campus except the Faculty Commons.

Here is the link:
