Jason, this is great! I look forward to working with you on this. I'll look at dates and get back to you in a day or two.  
Graham

Graham,

Great news. The college president approved hosting the AMPS conference in June 2021. I need to work with a manager here to confirm the precise dates to ensure there is no conflicting event, but mid-June is usually fine.

Do you have the days for the conference you prefer?

Best,

Jason

Hi Jason, glad you had a good conference.

We're ok on time but for full dissemination we'd ideally have an agreement in November. The detailed logistics can be arranged later but title, dates and a developed theme would be needed then, so yes, keep pushing!

Best,  
Graham

Graham,

I just got back from the conference. A very good education/pedagogy conference. Will likely attend again next fall in Tempe Arizona.

I apologize for the slow response from our end on the conference. Our president is pre-occupied by other matters and has not yet responded to the Provost's comments.

Are we okay on time? I will keep pushing for a response.

Best,

Jason

Hi Jason

The trip dates are not working out so I'll have to miss the visit. I will likely be in New York again later in the academic year so maybe then.

Let me know if there's anything you need from me regarding the conference/publications proposal for City Tech.

Best,  
Graham

Dear Jason / Sanjive

Thanks for the response. I'll let you know if this trip happens and we can try to meet up. Enjoy the North Carolina conference.

Best,  
Graham

Graham,

I am sorry for the delay on the conference proposal. The president has the information but has not responded yet. I am hopeful it will be approved soon.

I am headed to North Carolina to present at the ISETL conference Oct 10-12, so I will miss you in NYC. My chair, Sanjive Vaidya, cc'd here, has some availability on Oct 10 in the morning before 12:30pm and after 2:30pm on campus. On the 11th, he will be in Manhattan much of the day, but could meet you in Soho area around 1pm.

I figure Thursday would be better so you can see the campus and get a sense of our program.

Let us know which may work for you.

Best,

Jason

Hi Jason

Hi Jason

Hope you're well. I'm just letting you know there's a chance I will be in New York 10-11th Oct. If I can arrange this, would it be worth meeting up at your school?

Best,  
Graham
