

Culmination Meetings with Technical Advisor

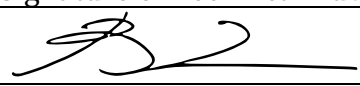

We, Yamil Gil, Aaron Li, Zakareia Masboob, and Jorge Peralta understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

<p>Via zoom, I met with Yamil Gil, Aaron Li, Zakareia Masboob, and Jorge Peralta for the second time. It was pleasant to see this team, and I enjoyed watching the new footage. Most of the handheld shots were impressive: They are steady considering there was no professional stabilizer involved. I personally like that some of the moving shots continued longer than typical students' footage, which requires them to be courageous and adventurous. The team also tried different shots from different angles at various locations. I see that they are dedicated and are having a good time together. The lighting in the indoor scenes is good, or at least I didn't detect any critical issues. The direction is good so far. Next, in a week, I need to watch edited sequence(s) to examine what may be lacking or what could be improved.</p>
