 Jessica Rosa

shoe·a·holic

Mrs. Santana

My name is Jessica Rosa, and my cultural background comes from the Dominican Republic that is why in my shirt I put in the chest area the word “Caribeña” because I come from the Caribbean and I am proud. I like the Dominican Republic because over there I do not feel stressed and is a country that is all about nature with beautiful beaches and palm trees. Although sometimes I feel frustrated when saying I am Dominican because for some Dominicans I am not considered Dominican because I was not born over there and I was born here in the United States. I cannot say that I am only American because I do not feel identified with the culture and I do not look like a typical American. Regardless, I choose to identify with what is my family’s background.

On the other hand, one of my characteristics is that I am very goal oriented. I set for myself daily tasks to complete and this helps me achieve discipline not only for my personal growth yet, but I also want to be disciplined for my business one day. I also like things that are on-trend that is why I sew shoulder pads because I considered my personal style to be youthful, business chic, and trendy. Another thing is that the details are important to me. It does not matter how small they seem to be. Those are things that I see and truly value. I spend a brief period of my free time watching makeup tutorials on YouTube. I have watched so many youtube tutorials that in my head I might think that I am a makeup artist, but I am okay at doing makeup. I like to listen to Christian, and gospel music. Aside from watching makeup videos I also post videos of when I have sung in my church or in other churches. Singing is one of the things that I like to do. I also have an Instagram where I style myself and I give the details of where I bought my outfits. Another thing is that I really like shoes, and heels which is why I included the word shoe-a-holic in my shirt.

Earlier this year, in February, I got married that is why I put Mrs. Santana in the back of the shirt. It has been a change and I am glad we did a simple ceremony because we were going to do it in July but after everything started happening right after we got married; I was thankful we did not have to postpone anything. The image in the back of the shirt is the drawing of the last chapter of my book titled “I do”. One of the things that I get inspired about my husband is that he is a graphic designer, and he is an entrepreneur, and that is something that I want to be not too far into the future. I want to be my own boss. In a few years, I would like to be a fashion forecaster and be able to grow in the fashion industry.
