

VR Goggles

VR Goggles... What are those?

Are you ready for the adventure? Merge VR Goggles provide virtual reality experience powered by any smart phone. They are made with a marshmallow like foam that allows the goggles to fit on anyone's face. Merge VR Goggles are unbearably comfortable while wearing and very easy to clean. With using the goggles when downloaded application is completed Merge VR provides hundreds of virtual applications to choose from. The goggles also provide a 360 experience for not only the videos but photos and games.

Features:

Functions and Instructions

⊘ MAKE SURE YOUR SMART PHONE IS COMPATIBLE TO GOOGLE CARDBOARD WITH GOOD DATA SERVICE

1. Download Google Cardboard onto your smartphone
2. Open the app prior to inserting the phone into the goggles
3. Follow instructions on smart phone when opening application on how to view the images using the goggles.
4. Insert your smart phone into the incision slot provided on the front of the goggles with your smart phone screen facing toward the back of the goggles and the camera being presented in the lens hole.
5. Put on the VR goggles
6. Adjust strap to comfort level by lugging Velcro on the strap and then pulling the strap toward your right to make it tighter or to your left to loosen the strap.
7. Once successfully putting on VR Goggles, the image may appear blurry, use the two black slide buttons presented on the top of the goggles to adjust the clarity of the image/ video.
8. After adjusting clarity on image/ video, follow the directions given on your smart phone screen instructing the user to turn over phone.
9. After turning phone over, place the phone back into the incision
10. The application will then provide a collected few choices on the menu tap to choose from. Choose one of the choices and begin your VR Goggle experience.

Procedure:

1. Ensure Smart phone has data service
2. Ensure compatibility
3. Take off any case on smartphone
4. Adjust the strap on the VR Goggles before proceeding to using.
5. Adjust the lens for the goggles to your liking, make sure your vision is clear
6. Place the goggles onto your face and adjust again to ensure comfort
