

# My Time at Mission Magazine

A philanthropic fashion media brand in Lower  
Manhattan.

# What is Mission Magazine?

Mission Magazine got started in 2014, created by Karina Givargisoff to make a difference in the world, by engaging socially conscious individuals through the lens of fashion.

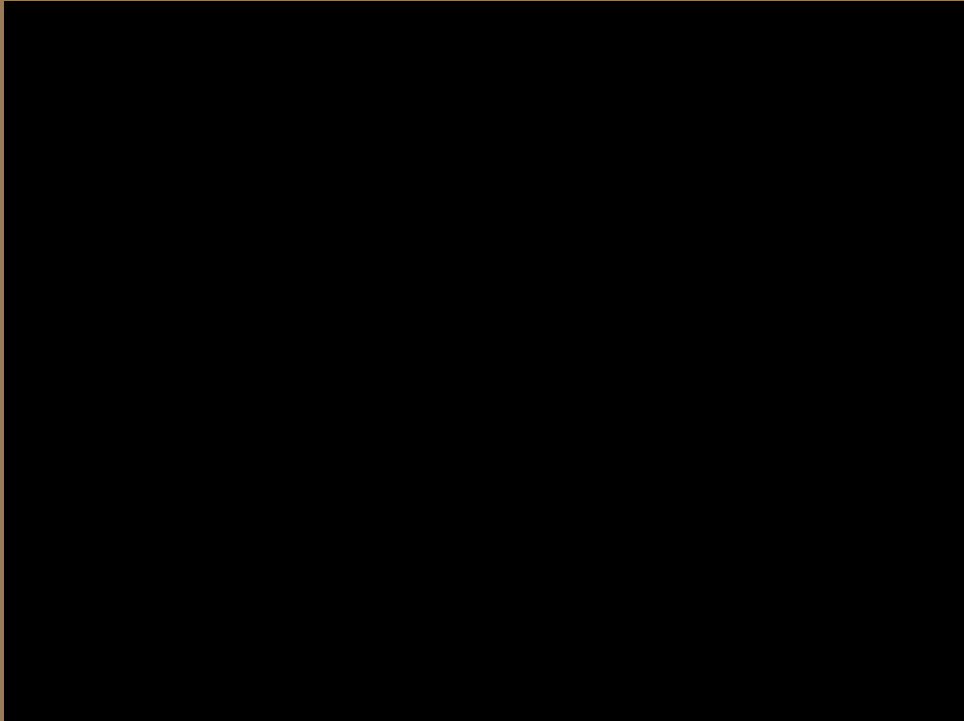

# What did I do?

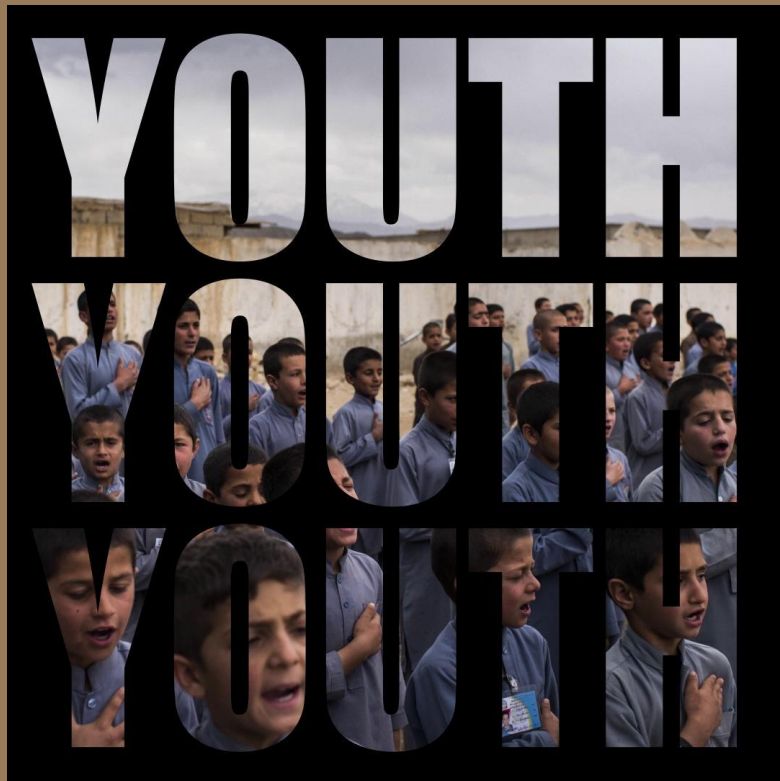

As a graphic designer I was focused on creating social media material, for Mission Magazine, mainly for Instagram, I would be creating different videos using Adobe After Effects.

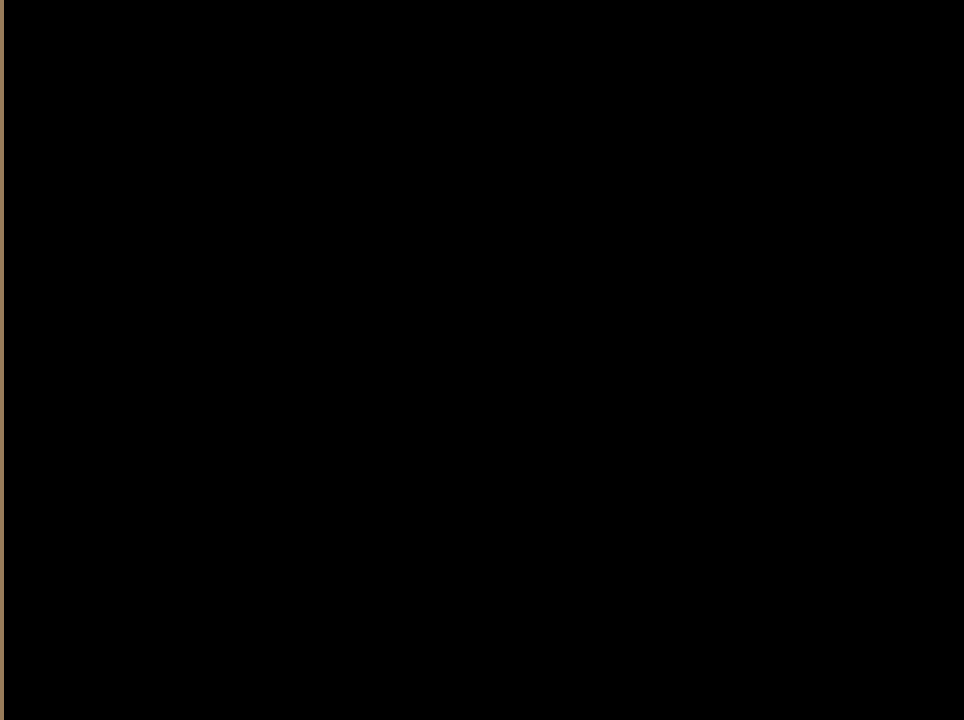

Material

Material

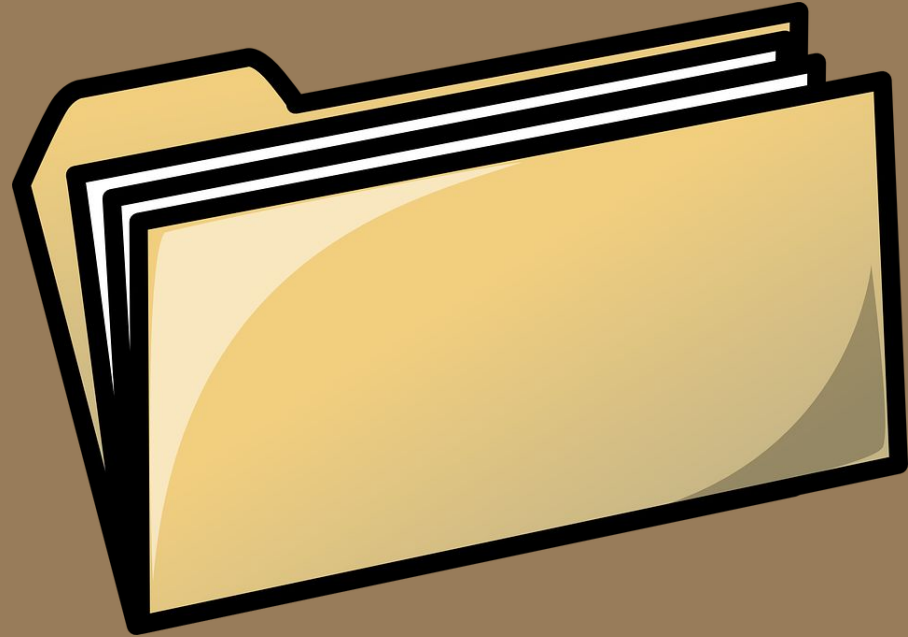

Material

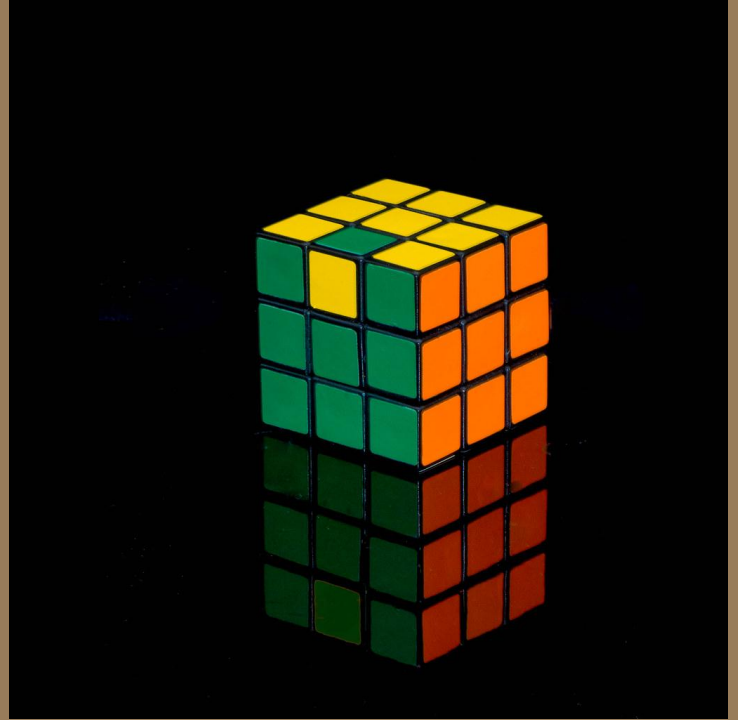

# File Management

Computer Files, folders, names, and flash-drives, are all incredibly important and easily overlooked throughout the workday.

# Distractions

Distractions are always an issue, but especially prevalent in my experience, with graphic design.

# Personalities matter

People aren't robots, someone's personality will always affect how they interact with you.

# Insights

I know more than I did before about what to expect in a job, and can now work on some mistakes I made to do better when I graduate.
