PROFESSIONAL SUMMARY

Register Dental Hygienist with a passion for providing optimal care and high caliber patient counseling. I love working with a diverse population and enthusiastic about dental health. I am friendly with patients while working quickly and efficiently to stay on schedule. Some of my professional accomplishment: Observing significant pocket depth reduction and major, hard and soft tissue improvement in patients with moderate to severe periodontal disease. Through customized treatment planning and proper oral hygiene instructions. I am motivated in expanding my knowledge on my future dental practice and confident in my ability to serve the dentist and patients with the same level of excellence that I have demonstrated throughout my academic journey.
